

## 11 BRIDGFORD ROAD

CLIENT:	PRIVATE CLIENT
SECTOR:	RESIDENTIAL
LOCATION:	WEST BRIDGFORD
VALUE:	£0.1m
DATE:	2007

**This innovative domestic extension won the East Midlands LABC 2008 award for 'Best Domestic Project'.**

The project comprised a modern extension to a period property requiring large glazed elevations and a double curved wave roof profile.

The resulting structural solution adopted a double curved timber Glulam beam supported on steel box section columns. The roof profile continued over the fully folding doors in the end of the extension to form a tented canopy over the patio area.
