

DARREN THORPE

Architectural Technician

BTEC First Certificate in Building Construction

BTEC National in Building Studies

Higher National Certificate in Building Studies

Personal Profile

Darren joined the business in 2000. His CAD skills enabled us to expand the design services offered to clients by providing high quality Structural Engineering drawings as well as giving us the capability to submit full Planning and Building Regulations applications. His strong Architectural background is invaluable in ensuring a seamless connection between the Structural and Architectural aspects of design.

Darren also has extensive experience of construction project management. He and his team can prepare schedules of work, obtain tenders and advise on the appointment of suitable contractors, before overseeing works on

site, all with the aim of ensuring completion of projects to specification, on time and within budget.

Project Experience

Wilton Lodge, Hull and Ashfield Court
